John Saul's Washington Nurseries.

ESTABLISHED 1852.

Catalogue No. 8.

SEED AND FLORAL STORE—621 Seventh Street,
Opposite U. S. Patent Office.

NURSERIES AND GREENHOUSES—"Bright"
Wood Avenue, Seventh Street Road.

ORCHIDS

A CATALOGUE

—OF—

For 1890.

CULTIVATED AND FOR SALE BY

JOHN SAUL,

Nurseryman, Seedsman and Florist,

WASHINGTON CITY, D. C.

NOTICE.

I ANNUALLY add largely to my stock of Orchids. Having regular shipments from Mexico, Guatemala, Central and South America, East Indies, and other countries celebrated for their Orchids, and as these importations are frequently arriving during the spring and summer months, it follows, as a consequence, that I have nearly at all times a great number of species not in Catalogue, as well as new and rare sorts unnamed.

Remarkably fine plants and masses of Angrecums, Dendrobiums, Saccolabiums, *Ærides*, etc., are offered.

From our bright sun and clear bright atmosphere my Tropical Orchids are superior to any grown in England, or the continent of Europe. My Dendrobiums make longer, thicker and finer Pseudo-Bulbs than they have when received from their native countries. *Ærides*, Saccolabiums, Vandas, Phalaenopsis, etc., make stronger growths, with rampant roots and healthy foliage. Our climate is perfection for Tropical Orchids.

My prices are very much lower than they can be purchased for in Europe, in many cases not more than one-half, and stronger, and in every respect superior plants. A few scarce species are not priced; the same will be given on application.

It is difficult to give prices of Orchids in a catalogue; a plant of any species may not be worth one dollar, whilst a fine plant of the same species may be worth five dollars. Orchids, I can supply cheap and nice plants; I have also fine specimens, when such are desired, at extra prices. Of many I can supply large masses. Parties forming collections would do well to visit my establishment, and look out their plants. I have every confidence they will be more than pleased in quality and price.

All are established in Pots or Baskets, or upon Blocks.
This Catalogue annuls prices in all previous issues.

JANUARY, 1890.

JOHN SAUL.

Catalogue of Orchids.

(T) Distinguishes the Tropical species, such as require the temperature of a hot-house.

(I) Intermediate or warm greenhouse.

(C) Cool, or such as may be grown in an ordinary greenhouse.
